Allowable Subject Matter

Claim 36 previously withdrawn ~~from~~ is hereby rejoined and has been fully examined for patentability.

Claims 1-3, 6-7, 23-27 and 29-36 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding claims 1 and 29, patentability resides, at least in part, in the electrical insulator being disposed between the inner and outer conductors, the insulator further having an axially extending outer surface with a channel and a sealing member disposed therein, in combination with the other limitations of the base claim; Regarding claim 23, patentability resides, at least in part, in the electrical insulator being water tightly sealed to the inner and outer conductors by at least two substantially centered seals, the insulator further having an axially extending outer surface with a channel and a sealing member disposed therein in combination with the other limitations of the base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Macek et al. 6,102,738 was cited for a similar connector.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brigitte R. Hammond whose telephone number is 571-272-2006.
